Re: SATAjet 3000 RP/SATAjet 3000 RP DIGITAL Spray Guns

Dear Mr. Bunk:

The Antelope Valley Air Quality Management District (District) has reviewed your letter dated September 12, 2006, requesting approval of the SATAjet 3000 RP/SATAjet 3000 RP DIGITAL spray guns as equivalent to High Volume – Low Pressure (HVLP). The District hereby approves the use of the SATAjet 3000 RP/SATAjet 3000 RP DIGITAL spray guns as equivalent to HVLP under the same conditions as those specified by the South Coast Air Quality Management District in their August 23, 2006 letter (for automotive coatings only, operating pressure not greater than 35 PSIG, must be equipped with pressure gauge).

If you have any questions regarding this letter, please contact me at (760) 245-1661, extension 6726.

Sincerely,

Alan J. De Salvo
 Supervising Air Quality Engineer
